Summary

Software Engineering undergraduate specializing in Cloud Automation with a strong foundation in Python, Java, SQL, and AWS. Interested in cloud-based application development, data and record handling, and building reliable software solutions. Hands-on experience with machine learning, natural language processing, frontend development, and cloud-based website hosting. Strong problem-solving mindset with an interest in developing scalable and efficient applications.

Technical Skills

Programming Languages: Python, Java, SQL

Cloud & DevOps: AWS, Cloud-Based Application Hosting, GitHub

Machine Learning & NLP: Machine Learning, Natural Language Processing (NLP), Pegasus, Abstractive Text Summarization

Data & Productivity: Data Handling, Record Management, Microsoft Excel

Development: Frontend Development, REST API Concepts, Git, Version Control

Other Tools: Canva

Projects

Text Summarization Using Machine Learning
Machine Learning / Natural Language Processing — *Python, NLP, Pegasus*

- Developed a text summarization project focused on generating concise summaries from lengthy textual content.
- Worked with Natural Language Processing techniques and the Pegasus transformer model for abstractive text summarization.
- Contributed to frontend development to provide users with an interface for submitting text and viewing generated summaries.
- Explored machine learning-based approaches for processing and handling large volumes of textual data.

Cloud-Based Website Hosting
Cloud Application / Web Hosting — *AWS, GitHub*

- Worked on hosting a website using cloud-based infrastructure and AWS services.
- Managed project files and source code using GitHub for version control and collaboration.
- Gained practical exposure to deploying and maintaining web applications in a cloud environment.

Education

VIT Bhopal University — Bhopal, India
B.Tech. in Computer Science and Engineering – Cloud Automation — *2023 – Present*
CGPA: 8.30/10.00

Certifications

Applied Machine Learning in Python

Google IT Support Professional Certificate

NPTEL – Cloud Computing and Distributed Systems

NPTEL – IoT Certification

Coding Profile
